

## Metal Detectors

ENGLO develops, designs and manufactures lightweight handheld metal detectors.

These detectors can be used as metal detectors for accurate search of people and hand luggage control in the airports, ports and other public institutions. They can also be used for precise positioning of cables, wires and pipes in walls and concrete, or to search for metal objects lost in sand and other materials. Different types of metals can be detected.

All ENGLO's metal detectors are rated IP65 under the international IEC 60529 standard and are splash and dust proof.

### **MINION-1 and MINION-2: All-Purpose Handheld Metal Detector**

- Handheld
- Highly accurate
- Lightweight
- 3 sensitivity ranges with automatic adjust
- LED, vibration or sound-based detection indicator
- LED-based battery charge indicator

### **METO-7: Ground Search Handheld Metal Detector**

- Handheld
- 3 sensitivity ranges with range regulator
- LED, vibration or sound-based detection indicator
- Coil to cover larger surface area
- Short or long handle
